"Medical alert bracelets save lives every day. My daughters and I are proud to design one that's fabulously fashionable. It's a safe way to be charmed!"

"In support of the challenges faced by children with severe food allergies and their parents, I felt inspired to create this bracelet to show my support."

"It becomes your voice to those trying to administer life-saving care."

a heart on your sleeve

By Hope Paige

Don't let your condition define you. We believe that identification means self-expression as much as safety, and our celebrity line of medical ID bracelets is designed for both.

We thank the eight celebrities who took the time to help make a difference. Proceeds from the sale of these bracelets will benefit the charity of their choice. So when you wear one, you are also helping others.

Everyday people. Extraordinary triumphs. Find out what it means to be "Charmed for Life." Step inside six stories that will stir and inspire you. CharmedforLife.tv

"Knowing that my son Jake now lives his bracelet means it will bring him it and when it needs to be, and not left at home because he's too embarrassed to wear one."

Dot-Marie Jones

"Glee"
Supports the American Cancer Society

"Medical ID bracelets are important at every age. [They] are fashionable and won't brand you, just protect you."

"Please help bring joy to children with serious medical conditions by purchasing my bracelet... help save your own life by wearing a medical ID bracelet!"
